Be a Part of the Mentor Network!

The Diabetes Care and Education dietetic practice group is sponsoring a Mentor Network to link dietetics professionals with at least 5 years experience in diabetes education with practitioners new to the field. If you are interested in becoming a mentor or being mentored, fill out the attached form.

DCE cannot assume any cost related to the mentoring activities once you are matched up. It is suggested that the cost of long distance phone calls or any other expense be borne by the person being mentored.

Return Forms to:
Carolyn Harrington, RD, CD, CDE
DCE Mentor Program Chair
